PRELIMINARY AMENDMENT

Applicants hereby request amendment of the application as filed. Entry of the present
amendment into the record is requested.

IN THE SPECIFICATION

On page 33, line 12, replace "a controlled" with -- an immediate -- and replace "an
immediate" with -- a controlled --.

On page 41, line 9, replace "a controlled" with -- an immediate -- and replace "an
immediate" with -- a controlled --.

REMARKS

Claims 1-39 remain pending and unchanged in this application.

The specification has been amended to reconcile the release profiles with the construction
of the respective dosage forms. Applicants respectfully submit that no new subject matter has been
added by way of amendment. Example 3 (page 33) and Example 13 (page 41) are osmotic device
formulations that contain a muscle relaxant in the core and a COX-II inhibitor on an outer coat.

Due to their construction and composition, these osmotic devices provide a controlled release of the muscle relaxant (pridinol) and a rapid release of the COX-II inhibitor (rofecoxib).

A substitute copy of pages 33 and 41 are enclosed herewith.

Consideration of the pending claims and an early notice of allowance thereof is respectfully requested.

Respectfully submitted,

Date: 7/25/01
